Opinion of the Medical Board.

Notes—(i) Clear and decisive answers to the following questions are to be carefully filled in by the Board, as, in the event of the man being invalidated, it is essential that the Commissioners of Chelsea Hospital should be in possession of the most reliable information to enable them to decide upon the man's claim to pension.

(ii) Expressions such as "may," "might," "probably," etc., should be avoided.

(iii) The rules of pension vary directly according to whether the disability is attributed to (a) active service, (b) climate, or (c) ordinary military service. It is therefore essential when assigning the cause of the disability to differentiate between them (see Articles 1182 and 1184, Pay Warrant, 1918).

(iv) In answering question 20 the Board should be careful to discriminate between disease resulting from military conditions and disease to which the soldier would have been equally liable in civil life.

(v) A disability is to be regarded as due to climate when it is caused by military service abroad in climates where there is a special liability to contract the disease.

20. (a) State whether the disability is the result of (i) active service, (ii) climate, or (iii) ordinary military service:

   No.

   No.

   No.

21. Has the disability been aggravated by

   (a) Intemperance?

   Yes.

   (b) Misconduct?

   No.

   (c) Any of the conditions mentioned in question 26, and if so, which?

   Yes, by active service.

22. Is the disability permanent?

   Yes.

23. If not permanent, what is its probable minimum duration?

   Not applicable.

24. To what extent is his capacity for earning a livelihood in the general labour market impaired at present?

   In defining the extent of his inability to earn a livelihood, estimate it at 25 per cent.

25. Is the man suffering from a disability which would obviously, so far as you can judge, cause him to be rejected by an Approved Society under the National Insurance Act?

   Not applicable.

26. If an operation was advised and declined, was the refusal unreasonable?

   Yes.

   (a) Discharge as permanently unfit.

   Statement of Case.

   Note: The answers to the following questions are to be filled in by the Officer in medical charge of the case. In answering them he will carefully discriminate between the man's unsupported statements and evidence recorded in his military and medical documents. He will also carefully distinguish cases entirely due to venereal disease.

9. Date of origin of disability: 19/12/17
10. Place of origin of disability:

   On 19/12/17, at station 40/12, a soldier was admitted to the hospital for treatment of a disability.
   On 20/12/17, the soldier was discharged from the hospital.
   On 21/12/17, the soldier was re-admitted to the hospital.
   On 22/12/17, the soldier was discharged from the hospital.

   The soldier was treated for active service.

11. If the disability is an injury, was it caused

(a) In action?
(b) On field service?
(c) On duty?
(d) Off duty?

12. Was a Court of Inquiry held on the injury?

If yes:
(a) When?
(b) Where?
(c) Opinion?

13. Was an operation performed? If so, what?

14. If not, was an operation advised and declined?

15. In case of loss or decay of teeth, is the loss of teeth the result of wounds, injury or disease, directly attributable to active service?

Opinion of the Medical Board.

NOTES.—(a) Clear and decisive answers to the following questions are to be conscientiously filled in by the Board, as, in the event of the case being referred to the Commissioner of Chelsea Hospital, it is essential that the Commissioners of Chelsea Hospital should have possession of the most reliable information to enable them to decide upon the man's claim to pension.

(b) Expressions such as "may," "might," "probably," &c., should be avoided.

(c) The rate of pension varies directly according to whether the disability is attributed to (a) active service, (b) climate, or (c) ordinary military service. It is therefore essential when assigning the cause of the disability to differentiate between them (see Articles 1109 and 1110, Pay Warrant, 1912).

(d) In answering question 50 the Board should be careful to differentiate between disease resulting from military conditions and disease to which the soldier would have been equally liable in civil life.

(e) A disability is to be regarded as due to climate when it is caused by military service abroad in climates where there is a special liability to contract the disease.

50. (a) State whether the disability is the result of (1) active service, (2) climate, or (3) ordinary military service.

(2) If due to one of these causes, to what specific conditions do the Board attribute it?

21. Has the disability been aggravated by

(a) Intemperance?

(b) Misconduct?

(c) Any of the conditions mentioned in question 20, and if so, which?

22. Is the disability permanent?

23. If not permanent, what is its probable minimum duration?

To be stated in months.

24. To what extent is his capacity for earning a full livelihood in the general labour market impaired at present?

In estimating the extent of his disability to earn a livelihood, estimate it at 100% or total incapacity.

24A. Is the man suffering from a disability which would obviously, as far as you can judge, cause him to be rejected by an approved society under the National Insurance Act?

25. If an operation was advised and declined, was the refusal unreasonable?

26. Do the Board recommend

(a) Discharge as permanently unfit, or

(b) Change to Engineering?

Dear Sir,

In our letter of the last instance we informed you that we did not have the necessary details re. Regt. or unit. However we think he was a member of the 11th Light Horse and there is a number of his returned from active service badge and it is 41744. He joined in New South Wales.

Hoping this information is sufficient.

Yours sincerely,
